

HERSPro

HERS RATING PROVIDER

Building Efficiency Resources has been a RESNET Accredited HERS Rating Provider since 2010. Our qualified staff understands what it takes to have a successful HERS rating company and wants to help your business flourish. As a third-party provider, we do not compete with our clients for ratings. We exist to help make HERS Professionals successful. Nothing more, nothing less.

Whether you are looking to become a Rater, or ready to make a switch, let us know how we can help your Rating business succeed!

What can your HERS Rating Provider do for you?

BER OFFERS:

Competitive pricing, which provides potential savings of over \$1000/year compared to the cost of other Providers, with additional discounts for high volume.

Industry leading support services from multiple experienced and professional staff to help develop and grow your business.

Fast turn around times, guaranteed! Our innovative technology approach enables on-demand ratings for qualified HERS Raters.

An advanced, proprietary integration with Ekotrope Modeling software, online database, and digital resources to make our Rater's job easier and more cost effective.

Service for HERS Raters, RFIs, and Modelers nationwide, with no extra travel costs for Quality Assurance — no matter where you work!

Partnerships with industry organizations such as ICC, RESNET, ENERGY STAR, Passive House Institute US, USGBC, LEED For Homes, and more.

Representation for the interests of our clients to RESNET, the EPA ENERGY STAR New Homes program, and other industry organizations.
